Dear Sir:

The Issue Notification for the above-referenced application indicates 895 days of Patent Term Adjustment. Upon review of the prosecution history, applicants believe that the term adjustment calculated by the Office may be longer than appropriate. Specifically, applicants believe the potential difference in calculation of delay may be associated with the Supplemental Information Disclosure Statement filed January 4, 2010. In the interest of the duty of candor and good faith in practice, this difference in calculation is brought to the attention of the Office.

Dated: March 29, 2011

Respectfully submitted,
